SENATORS TALK

Another Caucus on the Tariff Warfard Brings Out Some Suggestive Truths.

SENATOR SMITH'S LOUD WARNING

Unless the Protective Features of the Senate Bill Are Retained He Informs His Colleagues That the Measure Will Never Become a Law. The Louisiana Senators Repeat Their Demand for a Favorable Sugar Schedule.

WASHINGTON, July 25. F the action of today's Democratic caucus is obeyed tomorrow will witness an end of the debate on the conference report of the tariff bill and that measure will go back to and newspaper men.

After a debate lasting over three hours yesterday and upwards of that time te- to heaven. day Mr. Jarvis' resolution that the bill be sent back without instructions was agreed to by unanimous consent, al though at no time did Mr. Vilas give the assurance to the canous that he would not press a measure to strike out the differential duty on refined

Mr. Vilas said he was in favor of working out this differential because he believed by so doing much of the opposition that was manifested against the bill would be removed and the way would be paved for the adjust-ment of the difference between the two houses. With this duty which he several others were injured and over said was the chief bons of contention, 100 heavy draught horses perished. A cut of the way there could be nothing number of men were buried under fallto interfere with a speedy settlement of all the troubles and the early pasmotion and cause it to prevail if

possible. THE SUGAR SCHEDULE.

Mr. Caffery and Mr. Blanenard said they would insist that they be given the 40 per cent, on raw sugar, the 1 of a cent differential on retined, which benefited their people as much as it did the refiners, and that the bounty for 1894 should be paid the growers of sugar in this country and the treaty with Hawaii abrogatad. Unless this was done they served notice on the caucus that they would vote against Mr. Smith, of New Jersey, warned

Mr. Vilas that he was triffing with a weighty subject when he talked of changing the bill which had been the result of so much hard work in the senate and which and only passed by a very sim mejority of one vote. Mr. Smith said that a number of senators who had been opposed to the income had been induced to vote burned today. Loss \$125,000. Two the bill because the schedules firemen were injured. tax had been induced to vote relating to the industries of the great states they represented had b en arranged so their shops would not be compelled to shut up or their workmen thrown out of employment. Any attempt to change this angar schedule or any other schedule striking at the salient points of the bill would, Mr. Smith said, be hailed with satisfaction by those who had bolted the income tax, because they were very sick of their bargain and would jump at anything that would release them from it. Mr. Smith also said that it was a very serious matter whether the bill could ever be got back to conference, so narrow was the Democratic

AS VIEWED IN WASHINGTON.

Two Warships Are O dered to the Scene of Hestilities.

Washington, July 25. - Secretary Herbert has prepared orders for the Petrol and Concord, now on duty with the Behring Sea patro: fleet, to proceed immediately to the Chinese station. This action has been taken because of the threatoning aspect of affairs in Korea and the administration's desire to see that American interests have full refection.

The interests of the United States in that section of the globe are much more important than is generally supposed. In addition to the great tea trade with China, there plys regularly between the United States and Japan and China one of the very few lines of steamers in the foreign trade that sail under the American flag. It is felt that our existing trade relations may be paralyzed by a war starting in Korea and involving China and Japan. The United States will not at present, however, if at all, unite with any foreign power in making demands on China or Japan or Koren. It is felt to be incon-sistent with our established policy to

CLEVELAND'S ONE DAY OF REST

The Only Incident of the Day Was Occasioned by Senator Quay, Who of Officers Zing and Dyer.
When the officers went to the house Free List, Thus Throwing What the Enemy's Camp - Quiet Day, Also, in the House.

Washington, July 25. HE crowd was disappointed at to-day's senatorial debate on the question of agreeing to the request of the house of representatives for further conference on the tariff bill. It was not of so exciting or interesting character as was the debate on the first three days, and there was not an allusion made except very remote one, to the president's famous letter to Mr. Wilson. There were three speeches the longest by Sen-ator Caffery, of Louisiana, and two short ones by Senators Daniels and Hunton, of Virginia. Mr. Caffery's speech was in advocacy of his motion to have a modi-fied sugar bounty paid for 1894 and in favor of a fair revenue duty on sugar. Failing in getting such protection from the sugar interest of Louisians, Mr. Caffery declared, "more in sorrow than in anger," that himself and his colleague would be forced to antagonize

the bill and to part the ties which now bound them to the D. mocratic party. The speeches of Senators Daniel and Hunton were called out by a desire to correct an error in the report of Mr. Gorman's speech of Monday last, which represented them, with senators from four or five other states, as being se inimical to the house bill that they would have voted against it. Mr. Dan iel declared that he had named no conditions to command his vote and that, whether the bill as it would be finally fixed in conference suited him or not, it would have his support. Hunton expressed himself in favor of the proposed duly of 40 cents a ton on coal and iron ore and of 40 per cent. ad valorem on sugar-as fair revenue duties-and hoped that there was patriotism enough in the Democrats of both houses "to give an

take." SENATOR QUAY'S MOTION. A motion was made by Mr. Quay so to amend the motions of Senator and Gray as to put sugar on the free list. The whole matter then went over till tomorrow without action. senate at 2 30 proceeded to the consid-

eration of executive business, and, at 3 12, adjourned till tomorrow at noon. In the house Chairman Martin succeeded in having passed three pension bills of a general nature. These were house bills to amend the general act of died or were killed in discharge of duty and who did not, therefore, receive discharges from the service; an therizing fourth class postmasters to administer oaths to pensioners; and to extend during the term of their natural lives the pensions granted to in-sane, idiotic or other permanently buildings were burned to the ground. sane, idiotic or other permanently helpless orphan children of a deceased soldier. A CURIOUS CASE OF LARCENY.

It All Depends on What the Law Regards as Due Season.

Andrew Seeley, an old man, is in the station house charged with the larceny of a watch from William Rourke, an employe of Wills & Higgins. Rourke, it seems, entrusted the watch to Seeley for safe keeping and the latter pawned it with Green. When he heard that the officers were after him, he went to

redsem the watch and although the police had secured the watch, he reimbursed the pawntroker for the money advanced on it. Seeley is trying to show that he only speculated with the watch and intended to return it in due season.
